

We're HIRING!

Veterinary Surgeon – Clinical Research Associate

About TriviumVet – A PBI Gordon Company

TriviumVet is an innovative veterinary pharmaceutical research and development company based in Waterford city, in Ireland's sunny southeast. We're a small, dynamic team with deep expertise across veterinary science, regulatory affairs, quality, analytical development, and pharmaceutical formulation. Our mission is simple: improve the lives of pets by addressing unmet needs in companion animal medicine.

We develop therapeutics and diagnostics for diseases where treatment options are limited, and our products aim to make a meaningful difference to animals, veterinarians, and pet owners alike. Our lead product, FELYCIN®-CA1, was recently conditionally approved by the FDA for use in cats with subclinical hypertrophic cardiomyopathy, providing the first treatment option for the millions of cats with this disease in the United States.

Who You Are

- A qualified veterinary surgeon (MVB, MRCVS, or equivalent).
- Ideally with 2–5 years of experience in companion animal clinical practice.
- Interested in science, research, and making a broader impact on animal health.
- Eager to learn and contribute to a close-knit, interdisciplinary team.
- Skilled in communication, organization, and scientific reasoning.
- Proficient in Microsoft Office (especially Excel); familiarity with biostatistics is a plus.
- Comfortable managing multiple responsibilities in a fast-paced environment.

Key Responsibilities

- Assist in the design, conduct, and monitoring of field and laboratory clinical studies.
- Write, review, and manage clinical documentation (e.g., study protocols, SOPs, data forms, reports).
- Monitor study sites and assist in ensuring high-quality data collection and regulatory compliance.
- Support interpretation and analysis of clinical data and communicate findings to internal teams and stakeholders.
- Conduct literature reviews and contribute to study design and regulatory strategy.

Key Responsibilities

- Liaise with veterinary investigators, Contract Research Organisations, and other study partners.
- Help prepare regulatory submissions for global authorities (CVM – The Center for Veterinary Medicine at the FDA, CVMP – Committee for Veterinary Medicinal Products at the European Medicines Agency (EMA)).
- Ensure studies adhere to Good Clinical Practice (GCP) and Good Laboratory Practice (GLP).
- Track project progress against timelines and budgets.
- Participate in cross-functional project planning and problem-solving.

Why Join TriviumVet?

- **Impactful Work:** Contribute to the development of new therapies that are groundbreaking first-to-market treatments which enhance the lives of pets and their owners.
- **Veterinary Career Development:** Gain in-depth experience in clinical research and regulatory affairs with support from senior team members.
- **Broad Exposure:** Learn about pharmaceutical R&D, manufacturing, and regulatory strategy from a cross-functional perspective.
- **Flexible Working:** Blend of remote and on-site work in a friendly, collaborative environment.
- **Great Location:** Enjoy life in Waterford – Ireland's sunny southeast – with easy access to nature, culture, and coastal living.
- **Competitive Salary:** Reflective of experience, with opportunities for progression. Bonus and long term incentive opportunities available once probationary period complete.

To Apply

If you're a veterinary surgeon ready to step beyond clinical practice and contribute to veterinary innovation, we'd love to hear from you.

We're not looking for a perfect CV – we're looking for curiosity, capability, and a commitment to improving animal health through science.

Send your CV and cover letter to
